CALL 800-378-5007

Our Story

We started delivering Mead paper products to print shops and other businesses across the state back in 1994. We had a couple of old, worn-down vans. With my best friend at my side, we started delivering. Those old Chevys taught me how to maintain my equipment to last a long time, We were broke at the time and couldn't afford new ones. We got our first contract because of a freak snowstorm. The company we were replacing refused to drive in the snow. That snowstorm showed me that we needed to become the company that would overcome any obstacle. To this day, we still carry the same passion with every delivery. Over 30 years of service experience! We work on the philosophy of W.E.I.T. (What Ever It Takes). We take pride in every step of our pick-up and delivery services in which we will provide a customer experience that will exceed your expectations. Our 30,000-square-foot warehouse and four operating trucks in each location ensure a safe, effective, and on-time delivery for you and your customers. As an added benefit, you can track your delivery online in real time. Communication updates are the key to providing clear, efficient, updated information to our customers.
